PRICE FIVE CENTS.

THE SPOILS SYSTEM.

PRESIDENT HARRISON TRYING TO HAVE IT RESTORED.

WAR ON CIVIL SERVICE REFORM. Colquitt's Vote on the Warmoth Nomin -The Census Bureau as a Partisan Ma

chine-General Capital News.

WASHINGTON, March 7 .- [Special.]been charged in the New York Times to t the pending prosecution against the civil rvice commission is a conspiracy, into whi a the sident and prominent republican o icials have entered, for the purpose of wrecking the reform system, and substituting the old spoils system. Ex-Postmaster-General Frank-Hatton, who is the head and front of the fight being waged against the present commissioners, denies that either the president of any other high official is in league to resurrect the spoils system. In a vigorous editorial this morning he calls upon Lyman and Roosevelt, the republican commissioners, to resign as the only way to save the reform from public contempt. He says: "It cannot command the respect and confidence of the people so long as it remains in the hands of its betrayers and maladministerers. It cannot be saved from wreck by foolish and unwaranta. ble charges against the administration as an Instigation of the prosecution. It must go to the wall absolutely and irretrivably taless urected from the hands of its false frands." THE CENSUS BUREAU.

This is a republican administration in every sense of the word. Although Super ntendent of the Census Porter recently let it be understood that he would consult with the congressmen in appointing one man in each congres-sional district to get the farm mortgages, he will not do so. That is, he will not consult with any democratic congressman. Some of the Georgia members called at the census burea today to look into the matter, and were given to understand that they need make no recommendations. Indeed, Buck sent on a list of the men he wanted appointed last week, and Porter has decided to take Buck's men. Buck recommended the full number tenone from each congressional district.

However, only the name of one of the ap-pointees could be learned today. The fortunate one was S. Wise Parker, of Americus. The others will perhaps be announced tomorrow. These men are to be known as abstractors. When Judge Crisp asked Mr. Porter about the matter today, he simply replied: "Ss Wise Parker has been appointed in your district. No more are wanted." Thus the democratic congressmen can get absolutely nothing from this administration.

COLQUITT'S EXPLANATION. Senator Colquitt says it is known in and out of the senate, that he has always opposed War-moth. Of course this means that the story which has been going the rounds that he voted to confirm Warmoth is incorrect. It is somewhat difficult for correspondent to get at the exact votes in executive sessions as all senators and employes are sworn to the exact votes in executive sessions as all senators and employes are sworn to the exact votes in executive sessions as all senators and employes are sworn to the exact votes and the exact votes are put down as voting coutrary to the way they really voted. Even then, however, they cannot, under the rules, correct it, which, imply goes to show the absurdity of "dark-lant ern" sessions, and how senators may be irrepretably injured before their constituents by incorrect votes being given out by some one who rlight not have caught the sound of his voice listinctly, and understood an "ave" a "no."

ALLISON'S CHANGE OF OPINION. Senator Allson, the great republican tariff leader, created a sensation in political circles here today by coming out in an interview in which he plainly and distinctly goes back on the leading feature of the republican platform outlined in the Chicago convention. He says: "You may say that I am in favor of a deep cut on sugar. I will not say that I favor the abolition of the duty and the payment of a bounty. As to to tobacco you may say that I will vote to abolish the tax on it very reluctantly. We will have a hard time explaining abolish the duty on this luxury."

THE VOTE POSTPONED. The agricultural committee has postponed the vote upon the compound lard bill for a week. The southern men feel more hopeful and are working like beavers to defeat it. E. W. B.

BLAIR AND THE NEWSPAPERS.

The Senator Still Angry With the Press for Not Publishing His Speecher

Washington, March 7 .- After the usual morning business in the way of the presentation of petitions and of the introduction and reporting of bills, (none of them, of public importance) the senate at half-pas 12 proceeded to the consideration of bills on the calendar.

Public buildings on the ca indar having been reached, the following war passed: For Sterling, Ills., \$50,000; Oakland, California, \$300,000; Cheyenne, Wyo., \$150,000; Chester, Pa., \$100,000; Helena, Mont., \$300,000.

At 10 o'clock the Blair educational bill came up as unfinished business.

Messrs. Platt and Harris desired Mr. Blair to fix a time when a vote bould be taken on the bill.

Mr. Blair said he was unable to do so. At least five or six senators defired to speak on the bill, and the concluding speech of Mr. Evarts would necessarily take considerable time, probably a full day. He then proceeded to reply to some of the cri cisms of the bill made by Massrs Faulkner and Sponger. made by Messrs. Faulkner and Spooner. HE TACKLES THE NE VSPAPERS.

The senator from New Ha spanire again attacked the press of the courty. He went on to speak of the Boston Hera 1, Boston Globe, and New York Tribune as thing against the bill, and said that every deniocratic paper in New York advocated it, meaning in that connection, the Herald, Times, World and Evening Post. He also included in the list the Chicago Tribune-"that free trade organ." In conclusion, he said, that he had still further statements to make and statistics to introduce, but he would do so on some other occasion. The next speech, he said, would be made in favor of the bill by Mr. Higgins, on Monday:

After a short executive gains, on Monday: After a short executive session, the senate at 5:15 adjourned till Monday.

CLARK RETAINS HIS SEAT.

A Contested Election Case from Alaba Fails,

The house went into committee of the whole on the private calender. The first bill to be taken up was that which was tion last Friday, directing the secretary of the treasury to pay \$175,000 to Al ert A. Emory, of Connecticut, in settlement of his claim for the use of a testing machine.

After a long discussion is bill was laid aside to be reported to the chouse with the recommendation that the entities clause be stricken out.

final action was taken, and at 5 o'clock the house took a recess until 8 o'clock, the evening session to be for the consideration of private

pension bills.

The house in its evening session passed fifty private pension bills and adjourned till to-

CLAYTON'S ASSASSINATION.

A House Committee to Make an Inquiry WASHINGTON, March 7 .- At a meeting of Washington, March 7.—At a meeting of the house committee on elections today, the sub-committee, consisting of Chairman Ro-well, and Lacey and Crisp, reported that it had received evidence in the contested elec-tion case of Clayton vs. Breckinridge, from Arkansas, with a memorial from the con-sestant, and a statement from the contestee. They recommend that these he printed for the They recommend that these be printed for the use of the house, and say that they have proceeded as far as they can without authority from the house, and that owing to the alleged assassination of Clayton, whereby the contest has been supposed within a first highest inverse. been suspended, it is of the highest impor-tance that the matter be fully investigated. Therefore they reported a resolution providing for the appointment of a sub-committee of five members to be appointed by, the chairman, to make a full and thorough investigation of the contested election case of Clayton vs. Brecking. The subcommittee is to be authorized to send for persons and papers, to employ a stenographer, and if necessary to go to Ar-kansas to pursue the inquiries. The resolu-iion was adopted by unanimous vote.

THE CONDITION OF TRADE. Review of Business for the Past Week-

NEW YORK, March 7 .- R. G. Dun & Co.'s weekly

eview of trade says:
The state of the trade has not materially altered during the past week, though the change of weather has produced much temporary improve-ment in the same lines, and in other trades is rather less satisfactory than a week ago. The monetary situation is much more satisfactory. Notwithstanding the fact that the cash actually held by the treasury is \$3,200,000, more than last week, for rates on call here have declined from 5 week, for rates on ean neer have ucclined from to 3% per cent, and foreign exchange has risen from 485% to 486%. Interior money markets are generally steady, but, on the whole, rather more casy. The aspect of foreign traders does not change, as exports at New York still exceed those of last year a little, while imports have not of late shown an increase.

of last year a little, while imports have not of late shown an increase.

The volume of demestic trade appears well sustained. In the iron trade also the situation has not materially improved, and at Pittsburg prices are again lower. At Philadelphia mill irons are weaker but foundry is steady, and while stocks are not supposed to be larger, buying is light, and orders in sight are rapidly decreasing. In bar there is a little more inquiry, but prices of plates are shaded. The demand for sheet iron is unusually good, and for nails a trifle better. The window glass trade is active, and a fourth advance in prices within three months has been ordered, but flint glass works at Pittsburg are curtailing production.

has not changed any during the past week, in any material respect, the average of prices being sub-stantially the same, though there was a stronger tone Friday. The removal of fears concerning tone Friday. The removal of fears concerning possible exports of gold, the rapid rise of foreign exchange, indications that purchases on foreign account now exceed the sales of securities, all tend to make absorption of money by the treasury less observed. It may be added that the decrease in the activity of trade throughout the country tends to release larger amounts of money than have been expected to return to this center at present. But with bank reserves, remarkably narrow for the sa aon, speculation for an advance in stocks is checked by fear of artificial sfringency in money, as it is naturally also by the approach of the season of open navigation without satisfactory settlements among the transporting lines.

THE RICE SUPPLY. The Report of Dan Talmage's Sons-Advance

in Prices.

New Yorr, March 7.—[Special.]—Messrs.

Dan Talmage's Sons state that the count of rice in mills and warehouses 1st instant, together with estimated receipts of rough, reduced to cleaned, show forward supply: Carolina, 70,000 barrels; last year, 60,000 barrels; Louisiana, 110,000 barrels; last year, 145,000 barrels. The residue of crop is mainly fair to good grades, and in fine condition, thus guaranteeing safe carriage during summer months. Some 200,000 bags of foreign were required last year in addition to the amount above set in Prices. year in addition to the amount above set forth, and with equal demand imports will have to be made again this year. A Brewery in Trouble New York, March 7.—The general assignment of the brewing firm of Monroe Eckstein & Co., and of Leopold Wertheimer, its surviving partner, was filed in court today in this city. Monroe Eckstein died last June. Wertheimer is the head of the tobacco house of L. & E. Wertheimer at San Francisco. E. Wertheimer, of this firm, died and his widow annlied for the receivership for the business in. werthelmer, of this firm, died and his widow applied for the receivership for the business in San Francisco. This complication compelled today's assignment. The brewery interest is valuable and the assignces will endeavor to preserve it. The total amount involved is stated between \$700,000 and \$800,000, mostly commercial paper. Preferences amount to \$123,000.

A Curious Case.

RALEIGH, N. C., March 7.—[Special.]—The register of needs for Guilford county is confronted with a problem which only the courts can solve. A young lady of that county, who is very charming, has two lovers, and it appears was engaged to both. Yesterday one of the young men went to the register of deeds to procure a marriage license for himself and the young lady referred to. He was disappointed beyond expression when he was informed that his rival, whose engagement was previous, had filled a caveat emptor to prevent the issue of the license. The register drelined to issue the license until the courts had decided the question of title.

Two Reports Made.

Washington, March 7.—The direct tax bill was today reported back to the house from the judiciary committee, accompanied by a majority report submitted by Mr. Caswell, of Wisconsin, and a minority report by Mr. Oates, of Alabama. The majority report says that the views on the bill last year meet the approval of the majority, and are adopted by them in reporting the bill back this year. The minority report says that the veto message of ex-President Cleveland is so accurate and lucid in statement, so cogent in reasoning and logical in deduction, that the minority adopts it as expressing their views on the bill.

More of the Money Recovered.

CHICAGO, March 7.—A dispatch from Dallas, Texas, today says, Superintendent Fuller, of the Paoific Express company, and the father of Walton, the absconding agent, are here, and have secured from a house of ill fame a package containing \$16,940. Walton left this package in a woman's charge when he ran away. This, with \$8,000 given up by the absconder in New Brunswick makes \$24,940 of the original \$35,000 stolen.

THREE BOYS BURNED TO DEATH. The Explosion Caused by a Lighted Lanter Igniting the Sawdust in the Room-

A Premature Blast.

INDIANAPOLIS, March 7 .- A special from Evansville, Ind., to the Sentinel says: An explosion occurred today in the shaving or dust room of the Armstrong furniture factory, which utterly wrecked it and then fire completed the work. Three boys-Fred Sach, Willie Cheatham and George Crawford—were in the dust room eating their dinner and were burned to death. Their bodies were recovored later, but were burned beyond recognition. Charles Selby, the engineer, was blown twenty feet and had both legs broken and his head badly crushed. The explosion was caused by the flame of a lantern coming in contact with the powder-like dust. The loss to the firm is not great and is covered by insurance.

KILLED WHILE OUT BLASTING. NEWARK, N. J., March 7.—Two workmen were instantly killed, and several others were wounded, by a premature explosiou at Eagle Rock quarry this morning. The men were engaged in tamping a blast when the explosion occurred. It is supposed that the explosion was caused by foreign matter in the blast.

THE LAKE SHORE ACCIDENT.

Further Particulars of the Terrible Wreck-

The Killed and Injured.
BUFFALO, March 7.—All Buffalo was horrified last night by news that a terrible disaster had occurred on the Lake Shore railway, near Bayview station, about nine miles from this city. All kinds of rumors were floating about, each one more appalling than. the last, and a is always true in such cases, it was almost an impossibility to get any information from the

railway people.

The ill-fated train was No. 10, bound eastward, and due here at 9:30 o'clock, p. m. It was made up of three baggage cars, four coaches and four sleepers. Some miles west of Hamburg the train parted between the last coach and the first sleeper, thus destroying the efficiency of the air brakes, as far as the back part of the train was concerned, and placing it in an almost uncontrollable condition. It was a down-grade where this occurred, and the two parts of the flying express thundered onward with increasing speed, with its load of precious humanity, to death and destruction.

HE STOPPED THE TRAIN. The first section went along as usual until Conductor John E. Houghtaling discovered what had happened, and pulled the bell cord. It was probably just what most men would have done under the circumstances, but the act was attended with disastrous consequences. The section came to a stand still, and a moment or two later the rear section crashed into it with awful force and velocity and the wreck

was completed.

Louis E. Teat, the sleeping car conductor, was the first in the back end of the train to notice that the coupling had parted, and he instantly pulled the air brake cord only to find it had no effect. He ran to the other cars with the same result and was inst in the act. the same result, and was just in the act of screwing up the hand brakes when the collicion occurred. The sections came together with such force that the forward sleeper, the "Salina," telescoped the rear coach of the standing section, killing six people and injuring fifteen others. The cars were piled in all shapes on ton of one another, while the injuring fifteen others. The cars were piled in all shapes on top of one another, while the "Salina" was almost completely buried from sight. Those who escaped injury bravely set about helping those who were less fortunate. The screams and shrieks of many of those in the wreck were enough to make one's blood run cold. There were elveen persons in the "Salina," and one of them—J. Swayn, a colored porter—was hurled from the car a distance of thirty-three feet. All the rest were more or less injured. more or less injured.

LIST OF THE KILLED.

The others killed were:
JOHN W. FLYNN, of Canton, O., traveling agent of Lautz Bros, & Co., of this city.
JOHN T. FOWER, of Pittsfield, Mass., (supposed) traveling agent for D. M. Collins & Co., of that

Mr. and Mrs. J. E. STEWART, of Rochester.
Mrs. JOSEPH D. BAUCUS, of Saratoga Springs

At 6 o'clock this morning the railroad people brought the bodies of those killed into the Cen-tral depot, where Coroner Tucker, who had been notified and was in waiting, at once took charge of them.

A BRIDE AMONG THE KILLED. All the bodies, with the exception of that of Mrs. Bauches, the bride of a week, were taken to the morgue. Mrs. Bauches's remains were taken to Brady & Drummond's undertaking rooms. She was twenty-three years of age, and formerly lived at Rome, N. Y. She was

and formerly lived at Rome, N. Y. She was married a week ago today.

When the five bodies were taken to the morgue, those of the two men were unidentified. It was soon learned, however, that one of them was that of John W. Flynn, of Canton, Ohio. He leaves a mother at Canton, who was dependent on him for support. The body of the other man is believed, fromreards found in his pockets, to be that of John T. Powers, of Pittsburg, Mass., a traveling agent, most probably for D. M. Collins & Co., of that place, dealers in ladies' knit goods. He had a ticket from Columbus, Ohio, to Rochester. All the bodies were badly mangled. Those of Mr. and Mrs. Stewart will be sent home. Coroner Tucker will empanel a jury and hold a thorough inquest.

Those injured are as follows:

J. E. Minniek, Philadelphia, right arm crushed, end subsequently amputated at the Fitch hospital.

Sixteen persons were injured, including George E. Allen, general southern passenger agent of the Erie road, Buffalo. The nearest telegraph station to the disaster is that at Westburg and on that account particulars of the wreck were somewhat slow in reaching the city. GREENVILLE, Miss, March 7.—The river at this point has reached the high water mark of 1882. The levees are all right.

NATCHEZ, Miss, March 7.—The river at this point continues to swell gradually. There was another slow rain today, not enough to affect the river, but yet enough to belp soften the levees. Captain Ault, the levee inspector at Concordia parish, Louisiana, thinks now that everything is safe for two or three feet more of

Diphtheria Kills a Whole Family.

ZANESVILLE, Ohio, March 7.—J. C. Mc-Gregor, reading clerk of the house of representatives died this morning of diphtheria.

Mrs. McGregor died last Friday, after the death of four children. Three children are remaining, and Mr. McGregor's father may die, which will make ten deaths in one family from diphtheria.

Three Boys Drowned.

KNOXYBLE, Tenn., March 7.—While trying to cross the river at Johnson's island, sixteen miles above here, two sons of William Maples and a son of William Baker, were drowned yesterday. There were in a frail boat, which capsized, and the lads perished before aid could be rendered.

HE USED HIS PISTOL.

A Drunken Man Shoots Down Two Policemen and a Citizen.

CHICAGO, March 7.—Two police officers, Linville and Briscoe, and E. C. Cole, a citizen, were shot down in' the street tonight by Patrick Crowe, a young packing house employe, who had just committed a diamond robbery, during which he assaulted two officer persons. Briscoes injuries probably fatal. Linville and Cole will recover, but Linville may lose the power of speech, his tongue being cut in two. Crowe, after his shooting, and followed by a mob. Crowe passed last night in a disreputable house, and this morning he shot his hostess, robbed her of \$1,500 worth of diamonds and broke the head of a colored servant woman. One was a Married Man.

BIRMINGHAM, Ala., March 7.—[Special.]—
At the Pratt mines, six miles from this city, J.
P. McGuire was shot three times and instantly killed by J. L. Harvey. Both men were miners and worked in the same slope. They met at the entrance to the slope after dinner, and without a word Harvey drew a pistol and shot McGuire dead. The tragedy was witnessed by a number of people, but the murderer escaped. Harvey is a married man, and McGuire is single. They have been good friends, and the cause of the murder is not known.

Closed by the Sheriff. SAN FRANCISCO, March 7.— The private banking firm of Belloc Freres made an assignment to the sheriff today and closed its doors. The sheriff says that the liabilities, as far as known now, will amount to a half million dollars. The establishment is a branch of the banking house of Belloc Freres of Paris. The local manager issued notice that the firm was forced to suspend, owing to a failure to receive remittances from the Paris houses. He states that remittances expected soon will enable the firm to pay all demands at an early date.

NASHVILLE'S POPULATION More Than Doubled Within the Last Ten

Years.
NASHVILLE, Tenn., March 7.—[Special.]-NASHVILLE, Tenn., March 7.—[Special.]—
The new city directory, issued today, shows that the increase of population in the last ten years has been unprecedented, being over 100 per cent. The number of names in the directory for 4880 was 13,695. The number of names in the directory for 1890 is 28,512, an increase of 14,815 in ten years. The population of Nashville in 1880 was 43,350, or about 3 1-6 for each name in the directory. The same ratio amblied name in the directory. The same ratio applied to the present volume would give 90,288 as the present population. When to this added the thirty thousand taken in by annexation bills before the present legislature, the total will be about 120,000.

It is now stated that Shaffer's nomination will be confirmed. Logan Harris, secretary of the republican state executive committee, wrote a scorching letter today to Postmaster General Wanamaker, in which he told him that Shaffer's retention meant the loss of every republican congressman from North Carolina. It is now certain that many republicans, seeing the handwriting on the wall, will seek to ally themselves with the democrats in the campaign of this year. paign of this year.

A Big Syndicate.

RALEIGH, N. C., March 7.—(Special.)—It is stated today that the Blackwell Durham Bull tobacco works, with their business and good will, will be sold in a few days to an English syndicate for three millions of dollars. Representatives of the syndicate were to have visited Dürham thisweek and inspected the great plant, but after an examination of the books showing the business, announced their willingness to make the purchase without visiting the works. One condition the sale is that J. S. Carr is to be retained as president of the company at a salary of twenty thousand dollars a year. Inquiry has not revealed whether the sale to be made will include the interest owned in the work by M. E. McDowell & Co., Philadelphia, but the impression is that his interest will be included.

THEIR RANKS BREAK.

A CONSERVATIVE WILLING TO DO JUSTICE

AND CENSURE THE LONDON TIMES.

Mr. Jennings Offers an Amendment to the Government's Motion on the Adoption of the Parnell Commission Report.

London, March 7.—In the house of commons today, Louis J. Jennings, progressive conservative, member for Stockport, gave notice that he would move to add the following to Mr. Smith's motion, asking the house to adopt the report of the Parnell commission. The house condemns the conduct of those who were responsible for the accusations against members of the house of complicity in murder, when such accusations were based on forged letters.

The notice of Mr. Jennings's motion was received with opposition cheers.

Justin McCarthy expressed intense satisfaction at finding a conservative thus taking independent action looking to the censuring by the

In regard to the league's books, Mr. McCarthy assured the house that he had attended meetings of the league and that he had heard nothing contained in the books that might not be read in parliament.

parliament.

Sir Henry James compared the Parnellite leaders to captains in command of troops, with the striking difference that whereas captains were the first to condemn disorders, the Parnellites incited their followers to commit outrage. Referring to LeCaron and his alleged falsities, he asked what was LeCaron compared with men who had taken an oath to destroy the government of the queen and establish a republic, and then had entered parliament and taken the oath of allegiance to her majesty? taken the oath of allegiance to her majesty? He asked the house to recollect who it was that hired LeCaron. LeCaron was hired and paid by these English statesmen, who now cheered the men attacking him: [Cheers.] The speaker would rather occupy the position of LeCaron, objectionable as it was, than the position of men who were associates of assassins whose honor the house was asked to defend. Sir Charles Russell had referred to presumably honest men whose secrets Lecaron, had tried to gain. Who were sins whose honor the house was asked to defend. Sir Charles Russell had referred to presumably honest men whose secrets Le-Caron had tried to gain. Who were those presumably honest men? It was proved beyond presumption that they advocated the use of dynamite. Mr. Davitt, in his evidence, called the Irish World's outrage fund the inspiration of the movement and its financial strength. The commission report teemed with proof that Irish agitators affiliated with dynamiters, and sympathized with the party of violence. There were maintained funds contributed for the purpose of destroying the queen's government. Yet the opposition had the temerity to ask the house to accord these criminal conspirators reparation. The only justice parliament could accord, was to inscribe the commission report on the records, and defend the uprightness of the judges from the scurrility of men who now tried to hold them up to execration. [Cheers].

Messrs. Asquith, Chall, and others followed. The debate dragged wearily, and many members left the houses.

Finally the house was "counted out."

Mr. Caine, unionist-liberal, and Mr. Hanbury, conservative, will support Mr. Jennings's motion. They consider it exactly the kind of

Herr Tisza's Intentions.

Pesth, March 7.—After a conference with the emperor today, Von Tisza appeared in his usual place in the lower house of the diet. He stated that differences existed in the cabinet regarding the naturalization bill, and that if these differences were not settled soon he would inform the house of his intentions. Herr Apponyi moved to suspend the sitting, but Herr Tisza opposed the motion, declaring that he hoped the cabinet difference would be settled. He denied that a grave ministerial crisis had yet arisen. The house thereupon resumed debate on the militia bill.

RAN INTO THE GULLY.

The Narrow Escape of Two Horses Fron

Augusta, Ga., March 7.—[Special.]—A remarkable runaway and marvelous escape from injury occurred this evening on upper Broad street. A two horse wagon, in which goods are hauled from the factories to the depot, was being driven by a small negro boy, when the horses became frightened. They dashed out of Broad street across towards the Enterprise factory, and ran pell mell wagon and all over a twenty foot embankment into Hauk's gully, the waste way by which the canals empty back into the river. The current is very swift from the the river, and the team was swept under wo bridges and hurried on to the river. Just before reaching the river the horses caught in the branches of some overhanging willows, and the team was hauled out without having sus, tained any serious injury.

A Big Offer to the Southbound.

SAVANNAH. Ga., March 7.—[Special.]—The city council made a most generous grant to the South Bound railroad enterprise tonight. Twenty-seven acres of land immediately west of the Central railroad shops were offered to the company for twenty-five hundred dollars, and a right of was granted all the way accoss the city on Bay street. This will probably arouse a strong opposition, but the conneil proposes to encourage the new enterprise. The land and franchises are worth at leas a hundred and fifty thousand dollars.

The Baldwin Blues,

Millengeville, Ga., March 7.—[Special.]

The Milledgeville Light Infantry, at a regular meeting last night, voted unanimously to change the name of their company to "Baldwin Blues," which was disbanded some time ago. This revives one of the most gallant companies that ever wore the gray, and that they will be admirably supported by the citizens is demonstrated by the universal enthusiasm with which they have already gone to their aid.

Died in a Strange Land.

HUNTSVILLE, Ala., March 7.—[Special.]—J.
G. Flagg, of New York city, stopping at the Huntsville hotel for his health, died this morning, of heart disease. His remains were shipped to New York this evening. He was accompanied by his two daughters.

THE BURGLARS IDENTIFIED.

They Will Be Tried at the April Term of

Wilkerson Court.

IRWINTON, Ga., March 7.—[Special.]—The Toombishoro burglars, Rogers and Hart, have been committed to jail under bond of \$5,000 each. The evidence against them was very strong. Chief Kenan, of the police force of Macon, testified that the handwriting in a memorandum book left in the store on the night of the burglary, and found by Mr. Baum, corresponded most strikingly with the writing on a slip of paper found upon the person of Rogers.

Rogers.

When asked to mention the points wherein the similarity consisted, the chief said the h's, e's and n's were precisely alike. "In fact," said he, "there is an absolute similarity in the

e's and n's were precisely alike. "In fact," said he, "there is an absolute similarity in the formation of all the letters."

Chief Kenan further said that the chart found upon the prisoner, Hart, corresponded exactly to the chart found in the store of Mr. Mr. Baum on the morning after the burglary. A negro woman, Amanda Bradley, who lives near Toombsboro, testified that she gave dinner to a suspicious looking man on Monday, and the burglary occurred that night. When the prisoner, Rogers, was pointed out to Amanda, and she was asked if she recognized the man, she said: "That's the very man." A negro woman, who lives a few miles above Toombsboro, testified that she gave two suspicious looking men dinner the day after the robbery. The woman's name is Harriet Carswell. She also identified the men.

Mr. Joe Pearson, whose store in Gordon was burglarized some weeks since, identified on the stand, a watch found upon the prisoner, Rogers.

In the prisoner's behalf Mr. Griggs, of Macon, testified that to the best of his ability, knowledge and belief, he saw the prisoners in Macon on Wednesday night. The negro's evidence didn't go for much. When Rogers and Hart were first arrested in Macon they said they had never been in the neighborhood of Jonesboro. Later they confess having been there, but on a different errond than that charged them.

Everybody feels confident the right men are captured The final trial comes off in April, Your correspondent will keep the readers of The Constitution posted as to the final result of the case.

THE SCHOOL COMMISSIONER GONE. And He is Accused of Having Taken the

EASTMAN, Ga., March 7.—[Special.]—The February term of Dodge superior court has drawn to a close, and a great many cases have been disposed of. The charge of Judge Roberts to the grand jury in which he forcibly reminded them of their duty to look after violators of the penal laws resulted in the finding of a large number of bills of Indictments, among the most important of which was one against Henry Coleman, late county school commissioner, who has removed to Bristol, Tennessee. Mr. Coleman was indicted for embezzlement of about twelve hundred dollars of public school money. There is also an indictment against him for larceny after trust, growing out of his dealings with commission merchants and factors in Savanafter trust, growing out of his dealings with commission merchants and factors in Savannah. It is reported that he telegraphed a friend here that he was ready to come back and clear up these matters. The most important criminal case tried was for burglary, resulting in a conviction and sentence of the defendant to fifteen years in the penitentiary.

JACK POWELL DEAD.

THE HOMICIDE OF A CITY OFFICER OF GRIFFIN.

The Coroner's Jury Enters on an Investiga tion of the Tragedy-Apparent Justification Made out for McCullagh.

GRIFFIN, Ga., March 7 .- [Special.]-The jury of inquest to examine into the death of Jack Powell, which resulted from the wounds he received at the hands of Milton McCulloch he received at the hands of Milton, McCullion last night, have been in session all the afternoon. No verdict has yet been grached, and the probabilities are that an adjournment will be had until Monday before one is received. Many witnesses were subpænaed, yet there were only three eye witnesses to the affar, and one of these is inhibiting for having a formation. these is in hiding for having committed the

WITNESSES SWORN. The first witness sworn was . T. Allen, who testified that he saw Powell come out of Seymour's bar following McCulli h. George Cunningham was with them. Podell went up to McCulloch, caught him by the lapel of the coat with his left hand, raising his right hand, in which he held an open knife, as if he intended to strike, saying: "Danin you, you don't know me. I'll cut your throat."

McCulloch caught him by the arm and said: "Don't, Jack : don't."

Powell was cursing him, and saying: "Turn my arm loose." I believe Cunningham, who had held of him, also turned him loose. THE FIRING BEGINS.

At this time McCulloch pushed Powell back, jumped off the platform into the street, walked upon the sidewalk drawing als pistol as he turned. Steadying himself the began firing, not rapid and excitedly, but root and deliberate.

Colonel Emmet Womack, who was present asked Mr. Allen if Powell was advancing on McCulloch when the latter began shooting. He auswered "No, he didn't think be was." Powell seemed to be under the influence of whisky, but I can't swear he was, for I had not seen him before this time during the day

Wants.

SAVANNAH, Ga., March 7.—[Special.]—
Everybody was glad this morning to discover a good pressure on the hydrants in the upper stories. Even the old familiar yellow water, mud and all, was welcome. For apwards of two months Savannah has had to economize on water, and it was just, all the people could do to get along on the little that was available. For two months the big pump has been lying idle andergoing repairs. When the large pump as started this morning the water in the inch artesian well, which is being deepened, fell four feet. The large pump was drawing from the other wells and the river. This fall in the well which is opened, showed that the wells affected each other very directly. Increase suction on the other wells reduced the supply in the one with which the pump was not commerced.

She was not the winner, however. Miss Dupois, whose real name is Mrs. Bernier, appeared on the bills a French woman—the champion of Canada and the winner of a number of female pedestrian contests.

When Miss Dupois, or rather Mrs. Bernier, arrived in Atlanta, she and her husband, who, for a short while, worked in one of the tailor-ing shops of the city—being a tailor by trade put up at one of the prominent family hotels of the city.

There they both remained together until a few days after the walking match at the Gate City Guard armory, which came near getting the participant walkers and managers into the

The excitement consequent upon its brilliant financial failure was too great for him. He left Atlanta a day or two afterwards, and has not since been heard of. Mr. Bernier did not take his wife with him, but left her at the boarding house, where she has been ever since until Thursday morning

last.

Both walkers paid their bills promptly up to

A large number of Tom Mills's Atlanta friends were at DeGive's last night to give him a hearty welcome upon his first visit, as an actor, to his old "Zo Zo" was the play-"Zo Zo" with its music

its dances, its nonsense, and its girls. "And the same old gags" might be added. same oid gags" might be added.

The play has been before the public for a good many years, and is about as well known as any of its class. There is nothing to it, of course, but

the scenery, the comedy and the girls, but these

are sufficient to prove drawing cards. Despite the bad weather, the opera house was full of people last night. The hearty reception which Mr. Mills received showed that many were his friends, and this fact was further impressed upon the observer as the evening wore on. "Tommy" couldn't move without being cheered.

A bat of the eye would seem to some friend the incarnation of comedy, and his applause would receive endorsement on all sides. It was an ovation and no mistake. There were people in that audience who will go to their graves believing that Tom Mills is the great-

est of American comedians. Now Tom isn't a Jefferson nor Florence, but, as he says in Zo Zo, he gets there, "and with both feet. And he created a great deal of fun. His support is not strong, but girls are girls, and with pretty costumes to show them off, they attract. Taken all in all, this lot is probably as attractive as any of them

Then as he started off the stage, somebody in a box tossed him a quarter. With a grin that seread from ear to ear, he picked it up—then from all parts of the house, nickles, dimes, quarters and halves came pouring on the stage.
"Dat nigga's seein' mo' silver dan he's seen in many a day," was the sentiment that came from some of his brethren, and it was probably the truth.

DESTROYED BY FIRE.

The Buggy and Harness Consumed, But the Horse Escaped.

Macon, Ga., March 7.—[Special.]—Mr. Herbert Searcy, of Monroe county, is well known in Macon. The news reached Macon today that a few days ago Mr. Searcy drove a horse and buggy to his fathar's mill near Bolingbroke. A large fire was raging in the woods near by. Mr. Searcy fastened his team on the opposite side of a large gully from the fire, thinking that the fire could not cross the ditch. He then went into the mill on business. When he returned to where he had left the herse and buggy he found nothing but a charred mass. The vehicle and harness had been consumed by the fire. No trace of the horse was seen. On going home he found his horse was seen. On going home he found his horse, but the animal was terribly burned. REVIEWED BY RUSSELL.

He Sees No Evidence of a Race Conflict in the South. Hon. W. E. Russell has returned to Boston from his southern trip. To a reporter of the Post, he said:

Post, he said:

"So far as I could observe, the relation between the races were cordial and happy. I saw negroes and white men working everywhere side by side, travelling in the same cars, and no evidence anywhere of any conflict. There is everywhere a great dread of having the power of government put in the hands of the less intelligent part of the community, or in the hands of men without the capacity to govern. The south has had a hard experience which makes them fear to have their local or state governments put into irresponsible state governments put into irresponsible hands. I do not think that this is any question between the races or shows any bitterness or state governments put into irresponsible hands. I do not think that this is any question between the races or shows any bitterness or hostility toward the negroes, but is rather a desire that every community has to be well governed, and to have political power in the hands of men of capacity and standing in the community. I was pleased to see everywhere the steps that are being taken to educate negroes and to raise their standard of life. In Atlanta I saw school houses as good as any school houses in the north, and as thoroughly equipped, supported by the taxes of the whites, erected and used for negro children. It was told that great advances were being made in education by the negroes, and I believe they are making much progress in other respects. Everywhere they were spoken of as first-class laborers, and everywhere I saw them working faithfully and happily. I do not believe there is a southern community, where neer labor is employed, that would allow for a minute its colored population to go away if it could be prevented. I think industrial and commercial necessity, together with education, will do vented. I think industrial and commercial necessity, together with education, will do more than anything else to solve the race question. The south is amply able to take care of this question, and is amply able to solve it by itself. I think any interference by national government will only aggravate the matter and hinder rather than help the solution of the problem. The south is fully alive to the responsibilities that rests upon it and is anxious to deal fairly and honestly with the negro. Certainly everywhere the whites spoke well of him, and their relation towards the negro is kindly and beneficent."

An Accident on the Central.

An Accident on the Central.

BUTLER, Ga., March. 7.—[Special.—An accident occurred in the Central railroad yards here this morning at 3 o'clock. There were two or three cars loaded with street cars bound for Macon from Montgomery. Two or three of these street or electric cars were demolished, and one flat car was run off its trucks. Every employe is busy, and I cannot learn further particulars.

The Southern Travelers' Guide.—This railroad publication, published in Atlanta, will be cut Monday for the first time since December. The delay was on account of a new map being prepared in Philadelphia. Hereafter the Guide will appear every month. Mr. J. R. Watts, proprietor of the publication, is now in Atlanta, and says his new railroad map is the finest to be had.

Who Is He?—Diligent inquiry failed to throw any light on the identity of the dead man, Amos W. Smith, found at Chattanooga creek Wednesday. No "Amos" Smith appears on either the old or new directory, and the only A. W. Smith is Mr. Alex W. Smith, of the well-known law firm of Smith & Abbott. Who the man is, will probably remain a mystery.

The Refrigerating Company.—A meeting of the stockholders of the Atlanta Refrigerating company will be held today at the offices of the company on Alabama street. Business of great im portance will be considered, and among other things the issue of bonds, which was determined on at a previous meeting, will be definitely ar-

Captain Simms's Peath.

Captain P. B. Simms died at 5 o'clock yesterday afternoon, at the residence of his son-inlaw, Mr. J. S. Redwine. Captain Sims was quite well known in the city. He had been a sufferer from consumption for some time, and went to south Georgia for his health.

Realizing that he could not live long he started home, and arrived in the city Thursday evening. He was taken at once to Mr. Redwine's residence, where his last hours were brightened by every attention that lovwere brightened by every attention that lov-ing hands could suggest. His funeral will

The Arrival of Spring

When Spring arrives, the importance of taking some good blood-purifying, strengthening medi-cine, is recognized by nearly everybody. For at no other season is the system so much in need of, or susceptible to, the benefit imparted by that reliable medicine, Hood's Sarsaparilla. It expels from the blood all the impurities which have ac-cumulated during the winter, cures sick head-ache and the prevailing tendency to dyspepsia, gives healthy action to the kidneys and liver, and what is of vast importance, drives away That Tired Feeling which may be the consequence

If you have never taken Hood's Sarsaparilla try it and

Sarsaparilla conclusively proves the claim that this medicine "makes the weak strong." It does not act 'lke a stimulant, imparting fictitious strength from which there must follow a reaction of greater weakness than before, but possessing just those elements which the system needs and readily seizes, Hood's Sarsaparilia builds up in a perfectly natural way, all the weakened parts, acts upon the blood as a purifier and vitalizer, and assists to healthy action those important organs, the kidneys and liver.

Spring Medicine

Appling-Railroad People Here. The most radical movement made in years by southern railroads, was the action taken by the rate committee of the Southern Passenger association at Jacksonville last week. It was a declaration of independence.

BUILDING RAILROADS.

AND A QUARTER EVERY DAY

The action taken was announced unoricially in the dispatches from Savannah. The official data have not yet been announced by the association, but official confir-

mation is had for the published accounts, and the rest is in figures of little or no general int-The northern roads heretofore have hampered the granting of tourist rates on southern roads. The ironclad character of the transportation furnished was a great draft back,

but the great northern trunk lines derianded it. This was done, they claimed, for protec tion against scalpers—they, the northern roads, needed no such protection. For example, a tourist ticket was sof, at Atlanta for Old Point Comfort. The tic et was

lanta for Old Point Comfort. The tic st was signed here and was good for not me than twenty-four hours after the schedult time. That is to say, if the purchaser was less from the road twenty-four hours longer than the called for, his ticket was void. Then was no stop-over allowed. Then returning, the ticket must be signed again at Old Point Confort.

The whole thing was ironelad. It was reduced to manage their own passenger affairs.

The ironelad features go.

Hereafter the tourist ticket is sold like any other ticket, and is good for the limit of the tourist season.

The season begins May 15th, fifteen days

The season begins May 15th, fifteen days earlier than ever before.

The matter has caused no little commotion in the north and west, and a number of the large railroads are in consultation about it.

But the die is cast. The action of the rate committee is binding, and requires more ratification by the association. It commits to its independent policy every road in the Southern Passenger association.

A gentleman who had taken part in the meeting, at Jacksonville, was asked jesterday if a counter movement or policy of retailation was expected of the northern and western roads.

'No," he said, "we expect no such thing. They have nothing to retaliate for. The re-strictions which they demanded put upon our tourist rates were not applicable in their own rates. We have yielded heretofore, but they can take no offense now because we decline to do so this year. It commits the southern asso-ciation to an independent, home-rute policy. It's almost a revolutionary project, but it's perfectly fair, and southern roads hereafter propose to manage at least their own passenger affairs."

Owing to the unfavorable weather the completion of the Columbus Southern Albany is delayed for three or four days. THE CONSTITUTION'S estimate of the 12th may be stretched to the 15th, but this is the limit.

The people of Albany are keenly interested in the progress of the work.

New Atlanta and West Polis, Cars.

A big lease was filed in the county clerk's office yesterday morning. It was between the Atlanta and West Point

Railway company, and the Ohio Falls Car company, of Indianapolis, Indiana. The lease conveys to the Atlanta and West

Point Railway company 170 for cars for a term of five years. In consideration of controlling and using these cars for five years the Atlanta and West Point Railway company is to pay the Ohio Falls Car company, eighty-three thousand three hundred dollar cash.

The cars are to be delivered of the road at Macon and Birmingham.

The distance between Woodbury and Macon, excepting a gap at Thomaston, has been graded, and is now ready for the tracklayers. From LaGrange to Woodbury every mile has been let. Between LaGrange and Greenville 150 mules are probably at work, or will be before the close of the present week. Sherry & Moore have the contract for a section of six miles—three on either side of LaGrange. They moved the first dirt on Tuesday last and are working toward LaGrange. In a few weeks the contractors will have finished to the city line. Another force, under Pasc 11 & Co., began work at Mount ille on Mon ay morning. They have a five-mile contract. The line runs about one hundred yards north of the village. 150 mules are probably at work, or will be be-

There is to be quite a change at the railroad offices in the Kimball. The Queen and Crescent and the Georgia Pacific exchange offices, and the Queen and Crescent, the Georgia Pacific, and the Richmond and Danville, are to be all connected with only an arched partition between. This is equivalent to having one large office, the Queen and Crescent and one large office, the Queen and Crescent and Georgia Pacific occupying the same large room, and connecting with the Rich nond and Dan-

Jump 1 His Fare.

Last night a night on which Patrolman took was a passeng to the form the fare and he said "all right," but in a few seconds he jumped from the car. Patrolman Cook jumped off the car and pursued him. Hood fell down and cut an ugly gash over his left eye. He was captured and locked up.

"That tired feeling" is er frely overcome by Hood's Sarsaparilla, which gives a feeling of buoyancy and strength to the whole system.

WILL MEET TONIGHT

The Atlanta Branch of the S. T. A. in an Im THE COLUMBUS BUILDING A MILE portant Session An important meeting of the Southern Travelers' association will be held tonight at their headquarters, in the Gate City bank The Macon and Birmingham Hustling To building, to complete the arrangements for the convention which is soon to be held in At-

> Mr. J. C. Van Pelt, general manager of the National T. P. A., will be present, and will make a speech, urging all traveling men to take an interest in the association and to work for its improvement. Several other speeches will be made, and a full attendance is ex-

Thought to Be a Fugitive. Thought to Be a Fugtifie.

Patrolman Henry Abbott arrested a mulatto about twenty-three years old, yesterflay, who claimed to be from the Georgia Marble works, at Tate, Ga. He first gave his name as Olin Johnson, and afterwards as Charlie Johnson. He had an order in his pocket with the name of "Jack" Johnson on it. It is believed that he has done some deviltry. He says he has been here five or six days, but the order is dated March 6th. There is a bullet hole through the rim of his hat.

It is a Fact.

It has been conceded by those who have tried it, by others who have 'watched its effect, by physicians who know its composition, that Dr. Bull's Sarsaparilla is without a single exception the best remedy ever offered to the public as a cure for all diseases arising from a state of blood impurity and disordered functions of the body. Its effect is always sure. It provents blood impurity and disordered functions of the body. Its effect is always sure. It prevents eruptive tendencies. It assists digestion and the proper assimilation of food. It checks decay and ulcerative inclination, whether of the lungs, kidneys or liver. It cures syphilis, scrofula, eczema, salt rheum, itch, dyspepsia, indigestion, inactive liver, weak kidneys, nasal and urinary, catarrh, Bright's disease, nervousness, general debility, sleeplessness, melancholy, unnatural fatigue, loss of power, loss of memory, loss of appetite, loss of energy, etc., etc. Give it a trial all who would assist nature in her efforts to maintain health and strength until old age gently brings rest and quiet.

DIAMONDS. Watches and Diamonds Found in Tea and Coffee—A Novel Way of Introducing

Goffee—A Novel Way of Introducing Goods.

The names of all persons finding diamonds, watches, etc., are added to the list daily. The Overland Tea company, of San Francisco, Cal., have refitted the store, No. 43 Peachtree street, and in order to introduce their goods, this company will put for sixty days souvenirs in every can of tea and coffee sold, such as solid gold, silver and nickel watches, also genuine diamonds in solid gold setting; also money and many other articles of less value. Every can contains a souvenir. The coffee, can and contents weigh about three pounds; tea, can and contents about one and one-half pounds. This expensive and novel way of advertising will be discontinued after sixty days, and these really choice goods will be sold strictly on their merits, out without the souvenir. Of course every purchaser must not expect to get a diamond or watch. This company claim that they have just as good a right to give away watches, diamonds or other jewelry and money as their competitors have to give away glassware, chromos, etc. Gebup a club. Those who get up a club order most always get a handsome present. Orders by mail promptly forwarded to all parts of the United States on receipt of cash or postofice order. Terms: single can, \$1; six for \$5; thirteen for \$10, and twenty-seven for \$20. Address Overland Tea Company, Atlanta, Ga.

VAN HOUTEN'S COCOA "BEST & GOES FARTHEST."

Now that its manufacturers are drawing the attention of the American public to this first and, ever since its invention, the best of all cocoas, it will soon be appreciated here as well

as elsewhere all over the world. All that the manufacturers request is simply one trial, or, still better, a comparative test with whatever other cocoa it may be; then VAN HOUTEN'S COCOA itself will convince every one of its great superiority. It is because of this superiority that the English paper Health, says: "Once tried, always used."

To avoid the evil effects of Tea and Coffee, use constantly VAN HOUTEN'S COCOA, which is a STRENGTHENER of the NERVES and a refreshing and nourishing beverage. [52]

Scene—First Dinner to the Family Physican by Young Married Couple.

FAMILY PHYSICIAN—Do you know, there seems to be a natural flavor about this food that is most appetizing? What method do you use in cooking it?

LADY OF THE HOUSE—Well, Doctor, when I was at home, my mother would have no other than a Churice Oak Stove. From my earliest recollection I remembered how she would praise it, and her cooking was superb. So when we were married I insisted on having the same kind of stove. Of course the improvements made on them since mother bought hers, are most wonderful. Ours has all the latest, including the Wire Gauze Oven Doors. I don't understand the process exactly, but they tell me that all meats cooked in ovens with these doors, retain their juices and flavors to a much greater degree than by any other means. Can you explain the theory, Charles?

CHARLES (the Husband)—I can't remember all that was told me, but I know the Doctor can give a most clear and scientific statement of the reasons, can you not Doctor?

DOCTOR—Well, it is hardly professional to ask such information from a doctor; in fact, I am inclined to think he would not be helping his practice much by saying anything in favor of the Charter Oak Stoves. But as I have one in my kitchen, and know something about it, I think I can enlighten you. Of course it would take quite a long lecture to explain everything to you scientifically, and we have not time for that. Count Rumford an American, who was Knighted in Europe for his scientific attainments, pointed out, nearly a hundred years ago, that baking and roasting meats in air tight ovens was wrong, and he proved it by actual experiments. He asserted that it was as essential to health that our food should be cooked in pure, fresh air as that we should breathe pure, fresh air, and that air-tight ovens render the air impure, and the food cooked therein became tainted and unhealthy. But how to properly ventilate the oven was not discovered for many years after Count Rumford's time. The difficulty was to all

THE SUNDAY CONSTITUTION SENT TO ANY ADDRESS. ATLANTA, GA., MAI CH 8 1890.

What Does He Want When the Rev. Dr. William Akman, of Atlantic City, spoke at the unveiling of a Gettysburg monument, the other day, he warned his countrymen of the danger of benoring the memory of the rebel dead. He

Men have been talking as if all who fought here on either side, were worthy alike of reverence and honor. It is more than time that a halt was called and that we should have a clarified atmosphere, while this dusty mist of false tentiment passes away. So my heart cries out, all my nature cries ont, against the men who made the war, against the men who led those 60,000 men to trample these fields and moisten them with blood and to make them fields of the dead; the men who planted shose 200 cannon on yonder heights to pour an infernal fire on these peaceful hills.

Then the malicious sneak hedged a little, and spoke of the duty of forgiving enemies and treating them kindly when they acknowledged their guilt. Apparently afraid that his professions of peace and good will might have undue weight, he concluded by saying:

I have heard the cry when I have elsewhere spoken, the old familiar cry, "The war is over." I answer back, "Truths are not over, principles are They abide today as they were more than a quarter of a century ago. The rebellion was a crime—one of the crimes of the ages—a crime in the way of which neither freasures nor tears, widows' speechless gaze or orphans' low call of woe were permitted for a moment to stand. No lofty qualities of mind, no saintly character shall obscure from me the fact that great powers were used to beat down and blot from the earth my country, and to take the life of my countrymen who were defending it. I will never honor the memory of such men.

What does Dr. Aikman want? Does he want to make it unlawful to raise a monument to the confederate dead? Would be make a tribute to Lee and Jackson and their heroes an act of treason?

Fortunately, we may safely leave this man's punishment to his own people. Hate is a diminishing factor in our politics, and its apostles are growing more and more ashamed to show their heads. Dr. Aikman is a belated minute man. He should have died for his country twenty-five years ago. His attempt at this late day to, fight a host of dead men is not patriotism, but lunacy

Mr. Thirkield's Views.

Mr. Thirkield thinks that THE CONSTI-TUTION has done him an injustice in unintentionally misinterpreting the spirit of his recent utterances in regard to the situation at the south.

He says that in his allusions to the barbarism of the south, his remarks were intended to apply to the masses of freed pen and illiterate whites. He desires it to be understood, moreover, that his remarks were in no sense political in their nature, since he expressly states that the "uplifting" of the negro race, which is giving him so much concern, cannot be earried on by means of legislation or any of the methods of the politicians, but through the medium of Christian work and endeavor.

In respect of social equality, Mr. Thir-kield says he has nothing to do with that matter. He does not regard it as an issue one way or another, and it has nothing to do with the work in which he is e gazed.

THE CONSTITUTION has no lesse to do Mr. Thirkield an injustice. Its hier anxiety is to see Mr. Thirkield, and men like him. deal justly and fairly with the southern whites. The southerners among whom he has been thrown have treated him, according to his own statement, with marked courtesy and consideration. All that is asked in return is that he shall deal fairly with their views-or, if the term pleases him bettertheir prejudices.

A Colored Witness.

John R. Lynch, the colored politician of Mississippi, made an address in Charleston the other day in which he took the ground that there is no such thing as a race issue, there being little or no antipathy between the races at the south. It will be observed that this opinion is in

direct conflict with the statements recently made in Chicago by a preacher whose missionary work is in the south, and who left the impression that the race differences here are in the nature of a bubbling volcano, which may break out in violence at any mo-ment. The fact that Lynch is from Mississippi, which is declared by the republicans to be the center of the race disturbatice area, so to speak, lends significance to his remarks

He declared that the white and colored people are bound together by ties of affection that can not be destroyed, and his whole speech was on a line entire y different from that followed by the republican sectionalists, whose heart's desire is to incite conflicts at the south in order that the republicans may have a good stock of cam-

paign material. The Society of the Cincinnati.

A correspondent at New Haven, Connecticut, sends us some interesting facts concerning a time-honored society whose history dates back to the revolution.

In the early part of May, 1783, a meeting of officers was held at Baron Steuben's headquarters on the Hudson, where the several state lines of the American army were encamped, to take into consideration the organization of a society "to perpetuate the remembrances of the great struggle which had resulted in the independence of the colonies of North America, and the mutual friendships formed under the pressure of common danger."

This meeting founded the society of the Cincinnati, which was designed to endure, during the lives of its original members, their lineal decendants, and in the failure thereof he collateral branches deemed worthy of

membership. Washington was appointed the first president-general, and held the office watil his death. Hon. Hamilton Fish, of New York,

has held it since 1854. The general society was divided into state branches, one for each of the thirtee states. There was also a French branch which be-

came extinct during the reign of terror, but Carolina and Georgia socities ceased to exist early in the century or before; the Delaward society in 1802; the Virginia in 1822; the New Hampshire in 1830, and the Rhode Island in 1832. The Rhode Island society was revived in 1878, and reorganized by the general society in 1881. The Connecticut ociety has also been revived, and will apply to the general society for recognition in May

next. Membership in the society is highly prized. Only lineal descendants of original nembers, and of commissioned officers are eligible. Our New Haven correspondent urges the descendants of the original members of the Georgia society to revive the order in this state as a patriotic duty. Anyone qualified to enter upon the work by addressing "Cincinnatus, P. O. drawer 14. New Haven, Conn.," will be put in communication with the general society, under whose direction the proper steps can be taken.

It is a waste of time to tell some people that the short story, short article, short speech and short word should be given the preference. People wonder how Robert Louis Stevenson is able to make his writing so fascinating. They study him and yet miss the main characteristic of his style. His strong point is his ability to say tn the briefest space just those few words which stamp an impression upon the reader's mind. He deals in word pictures, and yet avoids long descriptions. With this pointer to aid him the average writer will no doubt continue to spln out a thousand words when two hundred would tell the story better.

A Cannibal Bishon. From Harper's Magazine.

During the visit of a queen of Denmark to the Danish colony of Iceland, the good old bishop exerted himself to the utmost to show her eve thing that was worth seeing. The queen p many compliments to her host, and having learned that he was a family man, graciously inquired how many children he had.

Now it happened that the Danish word for "children" was almost identical in sound with the declandic word for "sheep;" so the worthy bishop —whose knowledge of Danish was not so complete as it might have been-understood her majesty ask how many "sheep" he owned, and promptly answered, "Two hundred." "Two hundred children!" cried the queen, as-

tounded. "How can you possibly maintain such "Easily cnough, please your majesty," replied the hyperborean prelate, with a cheerful smile. "In the summer I turn them out upon the hills to graze, and when winter comes I kill and eat them?"

From the New York Sun. The negroes will not go to Africa, and the south will not let them go. Already agents who are seeking to induce negroes to emigrate to other seeking to induce negroes to emigrate to other states from North Carolina, and even South Carolina, are treated by employers as meddlesome enimies, and are having a hard time of it in consequence. The negroes are wanted were they are, and whatever may be the anxiety about the race question, its solution by depleting the labor mar-

question, its solution by depicting the later har-ket is vigorously resisted.

The south will not get rid of its negro popula-tion either by sending them to Africa or by en-couraging their emigration to the north. South-erners want them to stay where they are, to be hewers of wood and drawers of water. And the hewers of wood and drawers of water. And the negroes themselves want to stay. If they were disposed to leave, they would have done so long ago and escaped from the political discrimina-tion against them, of which they complain. When they do emigrate, it is almost wholly from the more northern to the more southern regions of the south, and to states where they are no bet-ter off politically. Besides, even if they were ready to accept deportation to Africa, there is no demand for them there. Africa has negroes enough already, and white nations are competing for the continent as a field for white immigration and enterprise. and enterprise.

ALLIANCE NEWS NOTES.

-Editor Napier, of the Walton News, has inaugurated a department in his paper which will be specially devoted to the interests of alliancemen. It will be conducted by Mr. D. H. Mobley.

—Speaking of the Farmers' Alliance, the Greensboro Herald-Journal thinks it is safe to say that it is paying very little attention to politics, but that "as individual members they are of course, alive to their interests."

President Phillips, of the Meriwether county Alliance, has issued a call to all sub-alliances in that county to send two delegates each to confer with the executive committee and the secretary of the Alliance, Tuesday, March 11, at Greenville, Ga., to consider matters of importance to the order. The Cumming Clarion says there is not a

more prominent allianceman in the ninth congressional district than Colonel T. E. Winn, of Gwinnett county, but adds that if candidates are to be voted for simply because they belong to the alliance, then we will be in the position the country was in when a secret political society undertook to overrun the country with Americanism.

During the trial of the case of Childers against the Richmond and Danville yesterday

morning, Dr. H. V. M. Miller was introduced as a witness for the road. Lr. Miller, as is well known, is one of the clearest headed and most scholarly men in the

city. He is as buick witted as he is learned, and altogether as a witness Dr. Miller was emineutly interesting.

So out of the ordinary run of things judicial was his testimony given, that the dignity of the court itself was several times ruffled with

"Yes; I read to them sometimes to show them how ridiculous books are." As Dr. Miller came down from the stand, Mayor Glenn, who also represented Childers, remarked:

"Doctor, you missed your calling. You ought to have been a lawyer. The doctor was ready for the mayor. Glancing at Judge Clarke, he retorted:

"Thank you, Mr. Glenn, I prefer to be an honest man.' Mayor Glenn saw that the joke was on him. He laughed, and so did the court, the lawyers

manufacturing concern, the Ludlow Bagging company, of Boston. To him is due the gratitude of the Georgia farmers, in one particular, at least. When the great jute bagging trust was being formed he refused to enter the combine, and by that means kept the trust back for a year. He said last night:

"I had a good deal of fun that year, and during the year that followed, besides selling a great deal of the products of our manufactory."

"What do you think of the trust?"

"Well, I believe it will inevisably go to pieces. I think they will get to swindling each other after a while, and will then break up of their own accord. You see they are now erecting a manufactory in Brooklyn, where they propose to control the eastern interests, as they intend to do in St Louis to manipulate the business at the west."

"Is this your first visit to Atlanta?"

"Yes, and it has been a very pleasant one. I am an old friend and acquaintance of The Constitution, and have the misfortune to be a 'Massachusetts democrat.' I was in Boston when the lamented Grady made his great speech, and I am confident that that unfortunate journey to Plymouth rock was the cause of his death. His loss is one that is irreparable. ing steam. The tender mounted the engine, and the mail, baggage and express cars piled up on the tender, so that in less time than it takes to tell the story, the cars were piled np on each

other in a heterogenous mass. Conductor Gregg was in the baggage-car making out his report, and the trunks were piled up all around and over him, but wonderful to relate, he was not hurt.

Neither engineer or fireman left their posts, but passed through the entire ordeal safely. General Passenger Agent Hardwick was on the train, and was awake at the time of the accident, and he says that the only explanation of the wonderful escape of trainmen and passen-

EDITORS CONSTITUTION: I only notice the card of Mr. Hurt in your issue of the 6th instant, not on account of any criticism on me, but because of several misstatements of facts. "He states that the Butler street sewer has been neglected, together with a number of other sewers on account of an undue proportion spent on a sewer in ich the chairman had an interest." Had Mr. It undertaken to inform himself he would read to the chairman had not not not the sewer in the two years that I served on the sewer committee, of nearly \$20,000. The committee on sewers for 1888 and 1880 distributed the funds set aside for sewer construction fairly and according to the necessities of the different sections of the city. His strictures on me (if true) would apply with

thing over two thousand voters registered for the last election, and the taily sheets of that election indicate that only about eighteen hundred votes were cast.

Atlanta has had a registration of ten thousand in round numbers.

For less than one-fifth of the qualified voters to determine the issuing of the \$330,000 of bonds appeared rather funny and the mayon and the city atterney began an investigation as to the qualification of voters.

It had been presumed since and before the election was ordered that only those who had registered at the last municipal election could vote.

But in their investigation they found that a ca o just like this one was hanging in the supreme court of the state from Albany and would kiby be reached next Monday.

This discovery induced both officials to think that the election who had been decided by the grant of the state from Albany and been counted by the grant of the state from Albany and been been counted by the grant of the state from Albany and been counted by the reached next Monday.

This discovery induced both officials to think that the election should be postponed.

To postpone, however, required a meeting of the general council, because the ordinance authorizing the election was passed by that body. Mayor Glenn then issued a call for a special session of the council, the call reading: ATLANTA, March 7, 1890.—The general council of the state from the s

The information I have received will be stated to you vertally by the city attorney. Respectfully submitted,
John T. Glenn, Mayor.
"I move that we go into secret session," said Mr. Middlebrooks.
The motion prevailed.
Mr. Goodwin, city attorney, then explained to the council the case from Albany, saying that he was afraid a registration for the special election was necessary.

"I have an ordinance here," said Mr. Kontz, which I desire read."

Now with the sea

sum wring out of the people in taxes and assessinents and other charges and sources of Incoae.
Did you ever think what may be done with that
hunch mency by men who try, and are in earnest
about it for the public good? Let us not in a
carping and criticising spirit, but in good faith,
help and hold up the hands of those in authority
who really look to the public good.
Only four years ago the total income of the city
was \$66,273.68 and the city government was carried on well enough with that amonnt. Compare
these figures with the balance sheet of the present ried on well enough with that amount. Completes figures with the balance sheet of the prespear, and you will see that the ctty is going to lect out of the people this year \$425,066.32 in accash over and above, that is to say more than done in 1886.—What are they going to do with this money?

year, and you will see that the city is going to collect out of the people this year \$425,066.32 in actual cash over and above, that is to say more than was done in 1886.—What are they going to do with all fhis mone?

3 Don't you see that just as soon as we even come in sight of where we can even hope to issue bonds some of them) the city council seems to be free-bearted and fiberal, just as when bonds were in sashion years ago? And that they have apportioned out the income for this that and the other purpose and now want (some of them do) the fibe people to let them borrow \$103,000 more on the plea that it is necessary.

Now, if sewers are really so necessary, let us spend on them enough of this vast sum of cash we have got on hand, and let these other things that are less necessary wait a year or two.

Now, I make bold to say that if our worthy mayor and council were to instruct the able comptroller to readjust and submit to them a new balance sheet with \$100,009 raised off of other things and added on to sewer extentions, it would be done, and we would have police, fire department, schools, streets, sanitary department, and everything else carried on and paid, for the year so nearly what is now mapped out, that practically no one would ever see any material difference. It is not pain that there must be something artificial about this claim of immediate danger or necessity in the matter of sewers? If the danger was so urgent and so pressing "as to make the additional sewer work now clamored for "absolutely necessary" to be done this year, don't you know that the wise and able men at the head of our city government would keet enough of the ready cash they have thera under their thumb, in the city treasury to do the work with? The fact that these good men and true, do not do so, shows that the necessity does not crist to the extent claimed. I have made this argument over and over again, based not on what we merely want, but what we are able to pay for, and nobody has attempted to answer it.

The proposition tha

Purdon me for this long letter. I present the views with modesty, but with a conviction and earnestness so great as makes me ask you to print what I have written. Yours truly,

GEORGE HILLYEB.

Mr. Hans to Judge Hillyer.

EDITORS CONSTITUTION: Judge Hillyer, in his article in last evening's Journal, does me injusarticle in last evening's Journal, does me injus-tice in accusing me of sinister motives in insinu-ating that I advocated the sewer extension only in a direction where I am personally interested. A one-sided accusation may do well enough for an ordinary citizen, but is scarcely excusable in a man who has occupied so high a position as Judge Hillyer. It is commonly supposed that a judge would weigh matters carefully before expressing so decided an opinion. If Judge Hillyer would take trouble to investigate, he could easily ascertain that I do not own one foot ascertain that I do not own one foot of property that would be directly or indirectly benefitted by the extension of the Loyd street sewer with the possible exception of my residence lot, which in no way would be financially benefitted. It is natural that the Loyd street sewer should receive so much attention from the council from the fact that it trains the most populous fitted. It is natural that the Loyd street sewer should receive so much attention from the council from the fact that it drains the most populous territory embracing the most valuable property in the city. Commencing and taking the sewage from the Arlington hotel and DeGive's opera house on Marietta street the Kimball house, all the valuable stored property from the corner of Peachtree and Marietta streets. The territory is bounded on the cast by Capitol avenue, on the north as already stated, on the west by the Central railroad and on the southwest by McDaniel and the southern city limits, including part of the sixth, all of the second, about half of the first and part of the third wards.

The judge complains of inequalities in the present method of sewer assessment, whereas the judge drew the original amendment to the charter making the fixed charge \$1.50 per lineal foot which was reduced by the legislature to ninety cents a foot. I want to state right here that I agreed with the judge in his original preposition, because the average cost of sewers, according to the estimates of Messrs. Herring and Clayton, is \$4.50 per lineal foot, and I was in favor of putting it on the same equitable basis as permanent street improvements, namely, that the city should pay one-third and property owners the other two-thirds. When I became a member of the sewer committee. I found it was the custom of previous councils to construct trunk sewers without charge to the property owners. I at once set to work to remedy what I considered an injustice to the city. In my public discussion with Judge Hillyer two years ago, I opposed his view of taxing the entire cost of this class of sewers to the abutting property, but suggested the amount which Judge Hillyer and Mr. DeGive's sewer in the early part of last summer, which was introduced, at my instance, in Novemser, 1888, by the Hon. Frank P. Rice. The committee on sewers passed up Judge Hillyer and Mr. DeGive's sewer in the early part of last summer, but owing to wet weather, and othe

THE BOSTON STARS.

Their Entertainment Last Night a Most Delightful One.

Despite the execrable weather last night, the amusement hall of the Young Men's Christian association was well filled with a refined and appreciative audience that gave a genuine ovation to Emerson's Boston Stars. The company's reputation had preceded its coming, and expectation was raised high, but the entertainment proved that it was not too high, for the Stars more than fulfilled the promise held out. In the audience were many of the most cultured musicians of At-lanta, and they keenly enjoyed the superb programme given.

gramme given.

Tha programme was excellent in all respects, and was gone through without hitch or omission. Every number was encored, and the performers were exceedingly generous in responding to these emphatic recalls.

With each successive appearance, Medora Hen-

son-Emerson displays new beauties of method and excellence of voice. Her versatility is spe-tially worthy of comment; she seems to sing oratorio music, the German "lied" and the English ballad with the same case and similar Engish bahad with the same case and similar artistic perfection. She was given an enthusiastic reception, and won golden opinions. So great a singer as she has rarely been heard in Atlanta. Her voice is perfectly pure, and her vocalization is faultless. She possesses a magnetic charm, which captivates her hearers. But no description can do her justice; she must be heard to be appreciated.

can do her justice; she must be heard to be appreciated.

P. S. Gilmore has truely said that Walter Emerson is the "king of the cornet." His maryelous performance last night justified the conclusions of this appellation. It is not exaggeration to affirm that Emerson is the greatest living cornectist. He was encored again and again, and responded cheerfully to each recall.

Mr. Rudolf King is a conscientious artist. He

fully to each recall.

Mr. Rudolf King is a conscientious artist. He possesess rare tact and unusual skill as an accompanist. His solos were keenly enjoyed. Since his visit to Atlanta, two years ago, we notice that he has added many delicate shades of artistic expression and technical ability.

His beavura playing was exceedingly brilliant and taking, his selections struck the popular ear and heart, and his manner, as a soloist and accompanist was excellent throughout.

Mr. John Thomas is a born humorist, his face being his fortune. That he possesses abundant native talent cannot be doubted, but that he is delicient in many of those qualities which go to make the finished clocutionist, is evident. His pronunciation is not always distinct, and he lacks variety in his facial expressions. With study and experience he will doubtless become one of the best readers and humorists on the stage.

This afternoon the Stars will give a matinee and tonight another, concert, with a change of programme on each occasion. No music lover can afford to miss these entertainments.

BISHOP HENDRIX CONTRIBUTES. A Letter and Subscription for the Mission

Captain E. M. Roberts, of this city, received letter from Bishop E. R. Hendrix, inclosing a check for \$25 to help the mission church in Atlanta, that bears the bishop's name.

Atlanta, that bears the bishop's name.

This is the letter.

"Kansas City, Mo., March 3, '90.—My' Dear Brother Roberts—I have yours of February 27, and its contents give me great satisfaction. I read every notice of the work of your church with interest, and am glad to see that you have so energetic a pastor, and one who has led you to success with the new church.

I inclose with pleasure my check for \$25, and only wish that it were consistent with my financial ability and the daily calls made upon my purse to add another cipher to the amount.

I will always be glad to hear from you.

Yours cordially, E.R. HENDRIX.

SPIRITUALISM IN COURT.

Mrs. Judge Ivey and Miss Mand Jones Sent

Spiritualism in court! That is what it is, and those who are sufficiently curious will have an opportunity of witnessing the trial of Miss Maud Jones, charged with cheating and swindling.

Miss Jones is an "independent slate writer," and has been written of in these columns on several occasions. She formerly occupied rooms in the Chamberlin & Johnson building, but has recently removed to the home of her mother, Mrs. Judge Ivey, No. 303 Whitehali

Her methods are simply that she gives sit-tings to those who are interested in spiritual-istic matters, at one dollar an hour, provided they receive any answers to the questions they choose to write. If there is no answer, no charge is made

charge is made

The questions are written on slips of paper, which are placed between two slates, and the answers are written on these slates, as she claims, by spiritualistic agency.

Detective Cason swore out the warrant, at the instance of Chief Connolly. He and Detective Bedford went to the residence and requested Miss Jones to go to the chief's office, which she did, accompanied by her mother.

Judge Owens, before whom the warrant was sworn out, left the fixing of the bond to Chief Connolly, who accepted a \$100 bond for Miss Jones's appearance at court Monday after noon.

moon. Warden Hunter made a case against Miss Jones for doing business without a license, and this will be heard before Recorder Kontz

and this will be heard before Recorder Kontz Tuesday.

Judge Ivey says that he inquired of the city officials, when Miss Jones first began giving settings, to know if she was subject to the license ordinance, and was informed that there was no ordinance governing the case.

Mrs. Ivey, who is a materializing medium, says that it is the first time they have ever been molested by the officers of the law; that the spiritualists are a regular religious body, incorporated under the laws as such.

The Day on the Floor of the New York Stock Exchange.

NEW YORK, March 7 .- The stock market was NEW YORK, March 7.—The stock market was active and stronger in all its departments today than it has been for some time, and an uniform and material upward movement was the great feature of trading. The recent improvement in the monetary situation, both at home and abroad, which the bulls have been claiming was all they have been waiting for, made a decidedly better feeling, and led to the buying of stocks for both feeling, and led to the buying of stocks for both short and long account. The expectation is that the benk statement tomorrow will show a further loss in the surplus reserve than the inpression that it will be the last bad statement for a long time, gave encouragement to the buyers of stocks. Liberal purchases of bonds by the treasury yesterday and heavy offerings again today also had a favorable effect when the street and the bears found themselves. on the street, and the bears found themselves no longer able to take the aggressive, and the covering of shorts was a large proportion of the business of the day. Operations in Reading again occupied most of the attention, but they were not occupied most of the attention, but they were not so targe numerically, nor so important in comparison, with transactions in the rest of the list. The bears had expected to have an easy time in stock, relying on the reported disruption of the pool which has been supporting it, but the support was very marked today, and to further add to the discomfiture of the bears, a firm which has been loaning large aways of stock upon the street suddenly. large amounts of stock upon the street suddenly called it in, and not only the shorts, but those who called it in, and not only the shorts, but those who are conducting the arbitrage operations between this city and Philadelphia found themselves in a tight place. The loaning rate went up to 11-16 per diem for use and, after it had been hammered down to 36¹/₄, a rise to 37³/₄ followed, the close being within a slight fraction of the best figure. Other coalers sympathized to a limited extent, but grangers became again very prominent in the market. As there were no disturbing reports from the west, they all were no disturbing reports from the west, they all made material advances for the day. A report that a dividend had been declared upon sugar refineries, was proved to be false, and this morning the stock opened off over one per cent, but buying, for a time at least, was as good as usual of late, and it was pushed up to fractionally higher figures than yesterday. This was all lost later in the day, however, and it closed with a fractional loss. Among the specialties Cleveland, Columbus, Cincinnati and St. Louis, and Wheeling and Lake Erie were the most prominent but their gains, except for the first named, were small. The strong feeling which prevailed during the day leasted up to the close, which was active at

Sales of lested stocks reached 205,891 shares, of which Reading had 95, 225, but no other stocks reached as much as 20,000 shares. THE CHICAGO MARKET.

Features of the Speculative Moveme

Grain and Provisions. CHICAGO, March 7-Wheat trading was of a more restricted character, and the market was more restricted character, and the market was again a narrow one, more so than yesterday. Some ontside business was transacted, but most of the trading was local. New York bought some wheat early, and a few country buying orders were also executed. Some selling orders were received from the continent for a small quantity. The opening was about ½c lower than yesterday, eased off ½c, then advanced ¼c@¼c, racided ½c@¼c, rallied slightly, again weakened, and closed about ½c lower than yesterday. There was very that or the continent of the continent

to wait for developments. Cable advices were rather tame, but did not show much of any change in prices. Nothing special in the way of crop news was reported, though a dispatch was re-ceived from Kentucky stating that wheat had turned up black in some sections, while other advices stated that there had been 'no damage to

vices stated that there had been no damage to speak of.

Corn received a little more attention than noted for several days past, the market ruling quite active, at times within a lower range of prices. Trade was largely local, though there was more doing on outside account. A weaker feeling was more noticeable on nearer deliveries. A weaker tone was due almost entirely to larger receipts. The market opened at yesterday's closing prices, was steady for a time until receipts came in, when tho market sold off 1/2621/4c, ruled steady, and closing 1/2621/4c lower than yesterday.

Outs were quiet and easier with fluctuations confined to 3/26 range. May was again most actively

Oats were quiet and easier with fluctuations confined to 3/4c range. May was again most actively traded in. At 21½c buyers took hold fairly, cut refused to follow the advance. The opening was steady, but a weak feeling soon developed, and prices receded ½60½c. This was followed by a slight reaction, and in turn by a further depression, and the market closed quiet at ½c decline for May, but was steady for the other futures.

Messagork—An numsually amail trade was record-Mess pork-An unusually small trade was reported, and there was no particular changes to note,

scarcely enough doing to establish a market.

Lard—A little more strength in a general way
was exhibited today, but the business transacted was light. Prices ruled about 21/c higher, and the

market closed steady.

Short rib sides—Very little business was transacted. The feeling was rather steady with no material change in prices.

PLAY BALL AGAIN. A MOVEMENT ON FOOT TO ORGANIZE
A STATE LEAGUE.

A Six-Club League Is Called for-Local Base ballists Think the Thing Cau be Mado a Success—What They Say.

Play ball this summer! Or rather—will you play ball?
The question is put to Atlanta by the preliminary movements for a state league. Macon is anxious for it, and Savannah, Au-

Albany are figuring on it. So far, the idea seems to have met with general encouragement.
The question was asked yesterday of a number of local baseball enthusiasts, and almost

gusta, Columbus, Americus, Brunswick and

without exception the answer was—
"Yes, play ball."
Figures couldn't be given now, but speaking generally, the prospects are that Atlanta will go into a six-club state league, if five other cities put up their forfeits and uniform their

"Yes," said one of the authorities here yesterday, "it can be made to pay. There is no doubt about that. The state league games would call out a bigger audience than a southern league could, and the working—with all the rivairy—is apt to be smoother. We oughtn't to start with a cent less than \$2,500,

onghin't to start with a cent less than \$2,500, and see to it that every other club puts up the money, and that all of thein are in position to go through with the season, and to pay as they go. Yes, sir, a good state league would pay."

Another authority said:

"Yes, it's a good idea. The idea should be to make a club, in fact a state league—using of course the best material in the state. I can't drop my law practice to help much, but I'll subscribe a reasonable amount of money and devote a reasonable amount of time whenever the call is made."

This was the general tenor of the replies.

The PLAN.

A letter from Macon, received yesterday, says: In a few weeks now, the season will be on us. If we are to have good ball we should have the managers of teams at work signing men. Would Atlanta come into a strictly state league?

* * * *

men. Would Atlanta come into a strictly state league? * * * * *

The plan that is most acceptable here (and we are ready to organize the day that a state league meeting is called) is to have an \$85 limit for players. Take the five cities, Atlanta, Augusta, Savannah, Macon, Columbus; and Americus, Albany, Brunswick or Atheus, if one of the four can get up a team. Put up a \$300 forfeit for the season's games, and make the season from May 1st to September 31st."

There was some difference of opinion as to the number of clubs it would be best to have—five, six, seven, or eight.

There was some difference, too, as to the enength of the season. The prevailing opinion,

angth of the season. The prevailing opinion, peahaps, was in favor of a shorter season, say four menths or five, instead of six.

But the general plan is indorsed. The Atlanta base-ballists believe that a strictly state league could be made a moral and financial success.

"Dr. King's Royal Germetuer is almost a panacea for all diseases of women!"

Such was the expression of a lady who was cured with Royal Germetuer of indigestion, debility, wasting of flesh, shriveled skin, diabetes and disease of the bladder and kidneys, after several physicians and many remedies had been tried in vain. It builds up from the first dose, the patient quickly feeling its invigorating and health giving influence. It increases the appetite, aids digestion, clears the complexion and speedily brings bloom to the check, health to the body, and joy to the heart.

Thousands of certificates, voluntarily sent for the benefit of suffering humanity, attest its virtues and sound its praise. It makes no mistake in diagnosis, or create one disease while curing another. It cures without fail, indigestion, insomnia, diabetis, eczenna, blotches, catarth, and diseases peculiar to females. If you are weak and debilitated and need building up, strengthening and renewing, Germetuer will do it. It is as palatable as lemonade, and lever fails to benefit. In order to place this incomparable remedy within reach of all, the price has been reduced from \$2.50 to \$1.50 per concentrated bottle, which makes one gallon of medicine as per directions accompanying each bottle. For sale by the Atlantic Germetuer Company, 14 North Broad street, Atlanta, Ga., and by druggists.

STORMY WEATHER.

NO IMMEDIATE PROSPECT OF

The Different Kinds of Snow and Sleet Which the Pedestrians Yesterday Had to Face-How the Poor Stood It.

Yesterday was a bad day. It was one of those days that Mr. Mantaline was in the habit of characterizing as a "demned, damp, moist, unpleasant day," and the prospects were last night that the same sort of weather will prevail for some time

Mr. John Fitzgerald who has recently come from the far northwest, for the purpose of dispensing the Atlanta weather, was trying yes-terday to show what he could do in the way of variety, and his efforts were certainly success-

Rain, snow, hail, sleet, and mist, each took its turn, and the consequence was that the streets were turned into howling wildernesses through which the foot passengers rushed frantically in search of shelter.

There were some more unfortunate than their follows, who knew there was no use hur-rying anywhere because they had no shelters to seek. These poor devils stood on the street corners, and it was pitiful to see them blow through their fingers and beat their wet arms about their bodies in a value effort to keep up the circulation and convince themselves that after all they were not so very cold.

And today the rich and well clad will have to face another time of inconvenience, and the poor and the half-starved and the ragged will again have to bear their discomfort.
"The barometer shows no signs of changing,"

said Mr. Fitzgerald last night, "and as long as the wind remains in the east this sort of weather may be expected. It will very probably be a little warmer, but there will be no more fine weather until the barometer rises and the wind shifts."

In Memory of Alex Hopkins.

A gentle, lovable life has closed; the calm spirit rested on the bosom of eternity as peacefully as a babe would nestle into slumber on its mother's breast. The last few words of affection were spoken and the soul lay down to pleasant dreams.

There are lives that are poems, and in the cadence of their days the rhythmof God'smercy flows. There are times when the great heart of nature beats near to the surface, and the everlasting arms are touching beneath; God looks to earth through human lenses, and through the clear light of a pellucid spirit, his loving kindness shines upon us. Such life is not like a summer rose that fades and falls and dies; its current flows smoothly like an

loving kindness shines thou and lates and falls and dies; its current flows smoothly like an untarnished stream, anon showing the strength of swiftness, or bearing some light flotsam on its bosom, now miroring the floating fancies of a summer sky, ever fresh and ever the same, onward and seaward while its days endure, pouring its life into the ocean at last; then rising invisible to the glorious sun, till it spreads its white banners in the ethereal dome. God gave us the spirit, and to God it returns; but its memory lingers like the joys of the past, a sweet and mournful trophy which our hearts have wrung from the cruel hand of relentless time. cruel hand of relentless time

Emerson's Boston stars will give a grand matinea at the Y. M. C. A. hall this afternoon at 2:30 o'clock. An entirely new programme will be rendered, and all who attend will no doubt enjoy a pleasant evening. The stars are immense, and no lover of good music should fail to hear them. Each artist is a star, and is deserving of the highest encominm. The Sheffield Journal says Emerson is the best cornetist in the world. Mr. King, as planist, has few equals. Mr. Thomas will please all who hear him, and of Medora Henson-Emerson the London News says:

A highly favorable impression was made by Miss Medora Henson, a young American lady, possessed of a fine soprano voice of considerable power and extensive range. Her performance of Mr. Randegger's concert-scena "Medea," secured her a success that should prove expansive.

HERE ARE TWO CARDS.

EDITORS CONSTITUTION: My attention has just seen called to an article published in your paper of the 19th instant, styled "Loring's Answer," in which one Charles A. Loring, the defendant in certain criminal charges of cheating and swin dling, makes a denial of the facts upon which the charges are based and bis arrest was made, and to divert the issue in which he is fatally caught makes allusions to me personally for a collateral

makes allusions to me personally for a conateral issue.

I have twice denounced this consummate sconndrel and dirty villian, Charles A. Loring, to his face, as a falsifier and infamous liar, and I will not further notice him through the public prints than to reiterate and apply such charges to all his statements made in his alleged answer.

As soon as the health of my family permits I propose to be present and testify to the truth of the charges so flippantly denied by said Charles A. Loring. I think I can prove him to be not only a lying villain, but also a perjured villain as well. Your chief executive, John B. Gordon, and other prominont citizens, who have known me for many years, will vouch for my private and professional character and standing.

Mr. Loring's Reply.

Mr. Loring's Reply.

EDITOR CONSTITUTION:—In answer to the card of one R. P. Duncan, published in this issue of your paper, I desire to state that the charges he makes against me are false in every particular, which I am fully prepared to show by documentary evidence, when the proper time arrives. The denunciatory language and vile epithets used by Duncan are in keeping with his character and the unsavory record he made during his brief sojourn in Adanta. At a meeting of the beard of directors of the Clayton Sewing Machine Motor company, his conduct was so reprehensible, as to cause the president of the company them and there to resign. This whole matter has grown out of business affairs connected with that company. If I had wronged Duncan in any way why did he not institute a civil suit against me and let the courts pass on the matter? He well knew if he obtained judgment against me it could be collected. Instead of pursuing this course, he employed a tool named Mchaffey to swear out warrants against me well knowing that a grand jury would not find an indictiment on such filmsy grounds as alleged in his accusations. His prosecution is an instance of the serious defeat in the law wherein the character of a citizen can be blackened upon the affidavit of an irresponsible person, made for malicious and sinster purposes.

As Duncan has seen fit to refer to Governor Gordon to bester up his character, I will give the public the names of a few clizzens of Atlanta who have had business dealings with Duncan, and who denounce him for the very things he falsely charges me with viz: John T. Stocks, coal dealer; Hout & Thorn, grocers; A. H. Nickless, grocer; Lt.D. Simmons, grocer. I also refer to the following namad gentlemen who were defrauded out or several thousand dollars by the confidence scheme referred to in my interview, of which Duncan was the head and front, viz. Major John Dunmondy, Mr. Green, with McDonsid, the publisher, and J. Craddock. Also, refer to E. K. Rich, formerly of Birmingishm, where Duncan resided, Mr. Loring's Reply.

Later in the day J. W. Wood, a Marietta barber, came to the city and applied to Detective Green for assistance in recovering a number of articles stolen from his barber shop. When he saw the goods found on Reed's person, he identified them. There is a reward of twenty-five dollars for Reed's arrest.

"Captain Swift." This remarkable play will be presented in At-anta next Monday twice, at matinee and night. When it appeared in Newark the News gave this appreciation of it:

appreciation of it:

"Captain Swift," the play produced at Miner's theater last night, ranks with "Jim, the Penman."
There are no suggestions of imitation or similarity in detail between them, but both deal with the slow winding of the web of evidence about guilty men, and with the final and inevitable discovery of their crimes. Captain Swift is a sort of an Australian Jesse James, who flees to England and becomes a visitor at the home of his own mother, to save whose reputation he had been in infancy taken from her arms and given to the care of strangers. He wins the love of a young girl, but his identity as the Australian outlaw is suspected at once by a visitor who had looked into the muz zle of Captain Swift's revolver in the bush, and he is recognized also by his foster-brother, a servant in the house.

Finally the mother discovers the relationship, and in her self-condemmnation and love of him tells him of it. Torn by contending emotions, the man hesitates to flee till dangers thicken around him and it is too late. Vainly mother, sweetheart, and friend try to save him, and at the last he chooses death rather than his your arrest and the revelation by his mother to her husband of her relationship to him. The play is developed in masterly fashion and awakens the liveliest sympathy for the doomed man vainly struggling in the tightening coils. tightening coils.

Alvin Joslin. If any one doubted the success of Charles Davis h his new play, "One of the Old Stok,,' the fol-owing extract from the Schenectady Star would dispel his doubt.

The new play, "One of the Old Stock," is one of considerable merit, and the funny portions set the gallery boys wild with delight. Mr. Davis has surrounded himself with an excellent company, and has mounted his play with every attention to detail and utterly regardless of cost,

The Boston Ideals. The New Orleans Picayune of this week gave

The New Orleans Picayune of this week gave this great organization the following notice on the occasion of the futerpretation of "Garmen," which will also be preschted in Atlanta next week:

The Boston Ideal Opera company, at the Grand opera house, gave as fine a performance of "Carmen" as has been seen here for a long time. Fauline L'Allemand was highly successful in the title role. This lady has played Carmen very many times in Germany, though last night she is said to have given her first performance of the part in this country in English. Most of the ladies now famous in the role of Carmen are not too fair, but are too fut and too forty. Miss L'Allemand is fairly tall, slender enough, and has a lithesome, faultiess form that makes her an ideal Carmen.

I have used Bull's. Sarsaparilla with entire success in cases of syphilitic, scrofulous and other skin and glandular diseases. It is the best medicine manufactured for that purpose.-James Moore, M. D., Louisville, Ky.

Surprise to All. After using "Mother's Friend" two months I can truthfully say it has no equal. I was so speedily and easily relieved that it was a surprise to all those attending me. "Mother's Friend" undoubtedly lessens the pains, shortens the time and restores tho mother speedily to health. I only used one bottle which cost me \$1.50; it has been worth \$20 to me. I cannot write enough on the subject; suffice it to sey that I will recommend it to all expectant mothers and advise them to use it. Mrs. J. A R., Muncie, Ind., September 27, 1889.

In all cases of stoppage, delayed, painful or other irregularities, Bradfield's Female Regulator is the only sure remedy. It acts by giving tone to the nervous centres, improving the blood and determining directly to the organs involved. The most intelligent physicians use and prescribe it. Write The Bradfield Reg. Co., Atlanta, Ga., for further particulars. Sold by all druggists.

To Young Wives.

A disappointed bachelor has said that some time after marriage a man's wife ceases to be supremely attractive to him. Never was a greater libel. Beauty preserved and grace retained can never lose their charm or yield their empire. The preservation of our bodies in their original healthy perfection and comliness is a sacred duty. Every young mother who will faithfully carry out the directions given with each bottle of "Mother's Friend" will never lose figure or complexion. The dainty bud will mature into the blooming rose, and old age will find her blessing the day she first used "Mother's Friend." Sold by all druggists Write the Bradfield Regulator Company, Atlanta, Ga., for further particulars.

"From an experience of over thirty years in the sale of proprietary medicines, I feel justified in recommending Ayer's Cherry Pectoral. One of the best recommendations of the Pectoral is the enduring quality of its popularity, it being more salable now than it was twenty-five years ago, when its great success was considered marvelous."—R. S. Drake, M. D., Beliot, Kans.

R. S. Drake, M. D., Beliot, Kans.

"My little sister, four years of age, was so ill from bronchitis that we had almost given up hope of her recovery. Our family physician, a skilful man and of large experience, pronounced it useless to give her any more medicine; saying that he had done all it was possible to do, and we must prepare for the worst. As a last resort, we determined to try Ayer's Cherry Pectoral, and I can truly say, with the most happy results. After taking a few doses she seemed to breathe easier, and, within a week, was out of danger. We continued giving the Pectoral until satisfied she was entirely well. This has given me unbounded faith in the preparation, and I recommend it confidently to my customers."—C. O. Lepper, Druggist, Fort Wayne, Ind.

REAL ESTATE.

AUCTIONEER.

For Sale to the Highest Bidder On the 18th of March, 1890, * AT 11 O'CLOCK A. M.,

The Former Capitol of Georgia

This grand building, four stories high, upon an elegant basement, fronts Marietta street 150 feet, running south along Forsyth street 100 feet ton 15-foot alley. What a magnificent hotel this would make, with five elegant stores on Marietta street to rent, at \$1,500 each. This property is on one of the most public and valuable corners in the city of Atlanta, and could be converted into a first-class hotel, fronting on Forsyth street, at very small expense; the immense basement would be just right for storerooms, barroom and billiards, and would rent for big money. This great corner is the most desirable spot in Atlanta for a city hall. With its comfortable offices now ready for occupancy, and those spacious halls sufficient to accommodate thousands of our citizens. We have no place now half large enough.

This building was originally planned and designed for an opera house, with sufficient capacity to seat thousands. There is negate superior to this, and a little money would accomplish the necessary change. The 150 feet front on Marietta street, without the building, the ground alone is well worth \$800 per front foot.

I will sell all the iron safes, vaults and appurtenances at the same time and place. No bid for less than \$125,000 will he received. Sale one-half cash, balance one and two years, eight per cent interest. Here is a fine opportunity for a syndicate to invest and make big money.
